PROJECTS

E Commerce website *MERN Stack, Responsive Web Design*

July 2022 - Dec 2022

- Developed an e-commerce platform wherein users can buy numerous products such as electronics, clothing, and more.
- Implemented dynamic data management using MongoDB, ensuring efficient product storage, retrieval, updates and
- for insertion, retrieval, deletion of data, user authentication, individual user data storage, and for other advanced tasks

Banking Management System

Feb 2022 – Mar 2023

- *Developed a secure and efficient banking management system to handle user accounts, transactions, and financial operations*
- Implemented MongoDB for secure data storage, including user details, transaction history, and account management
- Utilized the MERN stack (MongoDB, Express.js, React.js, Node.js) to ensure a scalable and high-performance system.

EDUCATION

Bachelor of Computer Science, Lovely Professional University

Aug 2022 - May 2026

CGPA: 7.1/10

Intermediate, Geeta International Public School

Apr 2021-Mar 2022

Percentage: 90.2%

SKILLS

Programming Languages

C++, Java, JavaScript

Frameworks

Angular, React JS

Databases

MySQL

Tools

Git, GitHub, VS Code, Google Colab

Soft Skills

Problem Solving, Communication, Teamwork, Adaptability

AWARDS AND ACHIEVEMENTS

Solved over 100 algorithmic problems on Leet Code, specializing in data structures and algorithms.

CERTIFICATE

Coursera

Aug 2024

C++ Basics: Selection and Iteration

TRAINING

Cipher School

July 2024-Aug 2024

- Learned core Java concepts, object-oriented programming (OOP), and data structures.
- *Implemented algorithms for sorting, searching, and dynamic programming*
